(CASE NO. R-05421) (GLOBAL ID NO.: T10000013029)**

Dear Ms. Jue:

On December 5, 2019, the California Regional Water Quality Control Board, Los Angeles Region (Los Angeles Regional Board) received correspondence from Los Angeles County Sheriff's Department (Department) requesting that the due date for submittal of the site investigation and well installation report for the subject site (Site) be extended from December 16, 2019 to January 15, 2020. On December 18, 2019, the Los Angeles Regional Board received a revised extension request from the Department requesting the due date to submit the site investigation, well installation, and groundwater monitoring report be extended to January 31, 2020. The time extension is needed to allow enough time to complete the required site investigation activities, receive and review field and laboratory analytical data, and submit the required technical report to the Los Angeles Regional Board.

Your request for an extension is hereby granted. The Department is now required to submit the technical report detailing the site investigation, well installations, and groundwater monitoring activities at the Site by **January 31, 2020**.
